Friday Morning, Jan. 20, 1870.

We are indebted to Mr. J. E. Hagood for Legislative favors.

We are indebted to our Representative, Dr. DOYLE, or valuable public documents.

The expenditures by the State government from Oct. 1869, to Oct. 1870, was \$1,832,018.40.

The House of Representatives passed a resolution, Jan 10, instructing our Senators and Representatives in Congress to vote again: t general amnesty. "Bill Arp" has embraced the Radi-

Under this caption, Messrs. WALLER, WATSON & Co., call upon those indebted to them to pay up. To have received indul gencein a time of need, and then refuse to requite it by prompt payment, is as bad as refusing to pay your printer's bill.

Town Officers.

At an election held in Walhalla, on the 16th instant, the following gentlemen were chosen for Intendent and Wardens for the present year.

Intendant-John Ansel.

II. STUCKE, H. W. PIEPER, G. M. YAR-BOROUGH, M. BULWINKEL.

Hon. Wm. P. Price.

This gentleman, recently elected to Congress from the 6th (Georgia) Congressional District, is on his way to Washington, for the purpose of taking his seat. Mr. PRICE was, for a number of years, a citizen of Green ville, S. C .- and represented this district in the Legislature. Mr. Paice has risen from the ranks of the people, and will maintain with credit the position to which he has been advanced in his native State. He has the best wishes of his friends hereabouts for his success in the varying field of politics.

The Way the Money Goes.

The reports of the Treasurer and Comptroller General show that the Committee of Investigation, appointed to report upon the electoral frauds in the Third Congressional District, in the canvass between REED and HOGE, have drawn, at various times, the sum of \$17,583.65. In view of this, Mr. NASH wants a Committee appointed to investigate this lucky Committee. Committees to investigate the affirs of the hand Commission and the troubles in the up country are also proposed. These costly furces are not worth the for bong fide reform. candle. No good has ever come of them. It is better to pays for past folly, than to continue it, by sending good money after what is hopelessly gone. Abolish the Land Commission, curtail the number and salaries of officers, and give us impartial laws; and in the joy of the present and hope in the future, we can forget the errors and disappointments of the past.

A Step in the Right Direction. A Bill has been introduced in the House,

for the consolidation of the offices of County Treasurer, Auditor and Assessors. At prestixes, alone. Prior to the war, the Tax Collector of Pickens District travelled the circuit, received returns and collected the taxes for a remuneration, which in no case exceed ed eight hundred dollars. Under the present arrangement the Auditors gets \$1000, Asses. sors over \$1,200, and the Treasurer this year will receive about \$1,500. For the pay of the Treasurer alone numbers of good men could be obtained, who would perform the entire services, and in a fairer and more satisfactory manner. The assessment of the property in the county, when made by a sin gle person, is likely to be more uniform than when made by different persons. In truth, no bona fida assessment is or has ever been made Each individual returns on oath his others declare the militia should be first tried. valuation, and the assessors seldom seize any threatened. one of the articles. Why could not this return be made to the Treasurer? and why could be not for his percentage advertise and visit each Township certain days to receive these returns? Why, too, could be not from these returns make out the Auditor's books and collect the taxes? We feel sure any business man can do the whole work in this county in four months. In other and larger counties the Treasurer receives larger pay, and if a little behind, can hire help from their bulky income, and then be well remunerated Taxes when collected belong to the people, J. E. HAGOOD, Esqt, is Chairman of and should not be squandered. This reform be secured without hesitation from a body of tax paying legislators. It is due, too, in fulfilment of the promises of retrenchment made by the radical party in the last campaign. Such a move would give the entire people renewed energy and hope in the fu

Jury Law.

The House has passed "A Bill to regulate the manner of drawing jurors." It provides that a Jury Commissioner shall be appointed by the Governor, and confirmed by the Sen ate, for each County in the State, who shall hold his office for two years, subject to the present. We then say to the belligerent saright of the Governor to remove him upon vans in Columbia, look within, take the beam good cause s'lown. The Commissioner re c ives three dollars per day while actually employed. This law is open for unlimited abuse. Instead of removing the selection of ter it more. BRENECKE in the power of the head and front of what ever party may be in the ascendancy in the State. We do not say this power will be abused, but it is certainly open to the grossest perversion.

County Commissioners.

Can any good thing come out of Nazareth? Cadet WHITTEMORE has introduced a Bill amending the County Commissioners Act, requiring all orders on the County Treasurer to be paid in ten days from date of issue and in their regular order. The Bill also provides that the County Auditor shall be the clock of the board without extra compensation. If the office of Auditor is continued, this should be done, but it would be better to abolish the office of County Anditor, and require the Commissioners to keep their own books, or at least at their own expenses. The fact is, these conflicting bills, some abulishing offices, others consolidating them, and others camplating duties on the officers proposed to be abolished, will, we fear, end in such confusion, that no good measure will result. While bills to increase salaries, and to create new offices readily pass, all measures, looking to economy, hang fire. They seem to be introduced more to tantalize the people than

From Europe. The intelligence from Europe is exciting. The bombardment of Paris continues without much damage or loss of life. A terrifie battle occurred near Lemans on the 11th. The army of the Lore, 200,000 strong, under Gen. CHAUZEY, has been defeated by the Prussians. Loss heavy on both sides.

MOBLEY, ignorant of every idea of dignity and propriety, asks for an Act to compel the Governor to visit and remain in the K. K. Counties one month. In a multifude of counsel there is wisdom but to a multitude of fully there is confusion. There seems to be little prudence manifested in this matter. The trouble is arbitrarily placed at the doors of the property holders and upon this assumption hasty action is advocated. The Radicals are spotless. They cannot sin, nor even contemplate crime. They never look within to find the evil and its remedy. But, abroad is the fault, and it is their duty to seek and apply the remedy. Their diagnosis is bad and of a necessity their medicine will aggravate the disease. Ignorance is the parent of vice and crime, while intelligence is the mother and supporter of OF TOWN COUNCIL OF WALHALLA, virtue, morality and peace. The class possessing the latter characteristics is charged as the violators of the law. The whites own the property of the state. It is plain to them, that any act of violence breeding confusion. diminishes the value of their real property, drives off immigration, disturbes labor, incroises state and county expenses, and injures their prosperity.

These acts are the violative of educated human nature and self interest. Can a people be presumed to violate these controling prin ciples? It would require a powerful motive to effect this, and one which cannot exist at out of your own eye, control your own party. keep within the bounds of good citizens, and peace and order will return of themselves. We would not claim that the whites are entirely free from error, but we do maintain that no people have endured such rapid and radical revolution in the social and political world with so little bloodshed, as the white propie of this State On the other hand the sadden emancipation and investiture of the negro with civil rights, his being armed and elevated to office has produced an overbearing licentious spirit, which often leads to difficul ties. This confusion is natural. Let there be no party legislation to increase and embit itary power, be it national or State. The citizens denounce such outrages and are or ganizing to prevent their recurrence. Is it not wise then to forbear for the present?

Divorc s.

We clip the following from the Columbia correspondent of the South Carolina Republi

Mr. Reedish, of Orangeburg, is about to introduce a bill to provide for divorce and alimony. The bill is quite a lengthy docu ment, of 16 sections; and providing for all possible emergencies. The following are the principle features of this new bill.

The Courts of Common Pleas in this State will be empowered to grant divorces for the

following causes: 1. Where either of the parties had a former wife or husband living at the time of soleannizing the second marriage. 2. When either of the parties shall have been wilfully absent from the other two years 3 Adultery. 4 Impotency. 5 Extreme cruelty. 6. Frau dulent contract. 7. Gross neglect of duty.

8. Habitual drunkenness for three years. The ninth and last section refers at length to the sentencing and imprisonment of either party in certain cases or under certain circum stances, specified in that section, and which is also made a cause for a divorce.

The bill differs from the one introduced by Mr. Hagood, of Pickens, on one very importa t point, as it does not provide for a sepa ration from board and bed, which provision is a strong feature in the other bul It is doubtful whether the House will adopt either of them, but will perhaps require its Judicia ry Committee to draft a Divorce Bill, which will combine the good features of both bills.

COLUMBIA, Sunday, January 15.—The impeachment of Judge Vernon is the engrossing topic to night. The proceedings in the case will probably occupy the Legislature during the greater part of next week.

Rumors are rife here to the effect that Uni ted States Marshal Johnson and United District Attorney Corbin are both to be re-moved from office. Waterman, a brother in-law of Governor Scott, is named as the probable successor of Johnson. Whipper and Worthington are also prominently mentioned in connection with the United States Attor-

OBITUARY.

DEPARTED THIS LIFE, in Walhalla, on the 8th instant, in the 10th year of her age, Lilly, eldest daughter of Mr. and Mrs. A. W.

LILLY was certainly one of the most intelligent children we have ever known-could con-verse fluently upon any subject with which she was the least familiar, to the entertainment of older heads. She was among the very few children we have known that could be confined my length of time upon which adults would ike to dwell. Her faculty for music was largely developed; and, although so young, had made considerable progress in that branch—could play several pieces well. For diligence and attention to the different studies she pursued, perhaps was never excelled.

But the growth and expansion of mind was too rapid and powerful for the delicate form to which it was united-the casket was too frail for the jewel it contained.

That she was much beloved, highly esteem-

ed, and now greatly lamented by the children of the place, and more particularly by the Sat-bath School to which she belonged, was dem-onetrated by the large number in attendance at the funeral

Her illness was painful and protracted, but she seemed to be a ascious of her critical condition, and of all that transpired around her .-But the aid of a skillful physician, and the un-remitting attention of parents and friends, could not stay "An angel on earth, a spirit ripe for lifeaven."

"The Angel of the Covenant Was come, and faithful to his promise stood, Prepared to walk with her through death's dark vale."

We almost saw, we felt the gathering cloud of woe, as it settled upon the faces of the he reaved, as they turned away from the little mound that marked the last resting-place of the remains of their child, to retrace their steps to the home once so merry and happy, but now so dolorous and sad; to be reminded by every object in the house and yard of the missing one, by which the family circle was broken — But the cloud began to break when we raised our thoughts to the ever, far beyond the "blo e throned stars" of Heaven, where she sweeps through the mansions of glory with haro in hand, and fadeless wreath upon her brow, and hear her loud acclamations of "Hosanna to the Lambrof Coni."
